

## Junior Web-Developer (WordPress) – Krasnodar, Russia

### Description

We currently manage dozens of “WordPress” websites with various functions and plugins. We would like to hire another developer for permanent quality assurance and optimization. The area of responsibility is to further optimize existing pages in terms of security and speed. Updates should be taken after a previous quality check (development of a test environment). We also want to gradually incorporate new features in our pages.

**We are now looking for a Junior Specialist (f/m) in web development to join our team in Krasnodar.** You will be involved in the development of our website and assisting our web team. We offer you a positive, dynamic atmosphere full of can-do attitude. We hope you share our passion for entrepreneurship and as a person thrive in a creative, collaborative and results-oriented role that gives you the independence to build things from the ground up.

### Responsibilities

- Be part of our Web team in the production of a high-quality and innovative website built on the WordPress CMS
- Leading ongoing development initiatives and collaborate on our internal research and development projects
- Troubleshoot web browser compatibility issues in all responsive layout
- Conduct reliable and comprehensible QA process
- Collaborate on website processes and documentation

### Qualifications

- Proven experience in HTML, CSS, javascript & PHP
- Familiar with WordPress
- Familiar with GitHub
- Strong willingness to learn and go the extra mile in helping your colleagues and peers
- Driven and determined to continually grow as a person and as a professional
- Flexible and adaptable in managing your time and schedule in a rapidly-changing environment
- Ready to take on new challenges and working on a demanding schedule getting projects across the finish line efficiently
- Positive can-do attitude in everything you do and fun to work with
- English language professional working proficiency

### Required experiences:

- PHP (proven skills)
- jQuery
- MySQL (proven skills)
- WordPress api (proven skills)

We expect at least 3 years of experience in one or more of the listed areas.
