

Senior Web-Developer (PHP Specialist) – Krasnodar, Russia

Description

Senior Web-Developer (WordPress), 3+ years of experience.

We currently manage dozens of “WordPress” websites with various functions and plugins. We would like to hire another developer for permanent quality assurance and optimization. The area of responsibility is to further optimize existing pages in terms of security and speed. Updates should be taken after a previous quality check (development of a test environment). We also want to gradually incorporate new features in our pages.

We are now looking for a Senior Professional (f/m) in web development to join our team in Krasnodar. You will be involved in the development of our website and assisting our web team. We offer you a positive, dynamic atmosphere full of can-do attitude. We hope you share our passion for entrepreneurship and as a person thrive in a creative, collaborative and results-oriented role that gives you the independence to build things from the ground up.

Responsibilities

Web Development, Programming, WordPress Administration, UNIX Servers with NGNIX

Responsibilities

- Be part of our Web team in the production of a high-quality and innovative website built on the WordPress CMS
- Leading ongoing development initiatives and collaborate on our internal research and development projects
- Troubleshoot web browser compatibility issues in all responsive layout
- Conduct reliable and comprehensible QA process
- Collaborate on website processes and documentation

Qualifications

- PHP (proven skills)
- jQuery
- MySQL (proven skills)
- WordPress api (proven skills)

We expect at least 3 years of experience in one or more of the listed areas.

Language Skills:

- Russian
- English (company-wide language)
- German might be a plus
